end-of-line packaging experts

Over 50 Years of Innovation

ABOUT US

- Matco has been the leading Dutch manufacturer and supplier of semiautomatic and fully automatic pallet wrapping and strapping machines in almost all of Europe for around **50 years**.
- From an entry-level model to high-end customisation, we take care of it. We owe our good name to top-quality products that do their work for years without any problems and to our excellent service. Ever since our establishment in **1975**, this has been our strength.

INNOVATIVE SOLUTIONS

Thanks to years of experience, expert knowledge and good cooperation with customers, we offer optimum security in end-of-line packaging systems for every industry. Matco distinguishes itself with a contemporary vision and approach: we use our broad knowledge and experience to proactively come up with innovative solutions for complex transport packaging.

TEAM OF EXPERTS

At Matco, you can always count on advice and service from real experts. We diligently deliver excellent service and quality. Our organisation has a no-nonsense culture, where professionalism goes hand in hand with innovation and quality.

PARTNER FOR YOUR GROWTH

We aim for substantial company growth and invest significantly in resources and technology to be the ideal partner for you. We know what we are talking about, we are flexible and we can switch when necessary. You will notice this in every contact with our staff. Almost no challenge is too big for us, concessions are not made and 'no' is a word you won't hear easily at Matco International.

Built on experience. Driven by innovation. Committed to your success.

OWN EXPERIENCED ENGINEERS

Thanks to our diversity of specialisms, we offer the best solution in standard and custom-made wrapping and strapping machines. We offer our customers the best possible solution at a fair price. Through customisation, we can offer our customers ever-increasing capacity and flexibility. We have our own experienced engineers to monitor the process and make adjustments at every stage where necessary.

SUSTAINABILITY THROUGH EFFICIENCY

Everything Matco does is dedicated to sustainability: we allow all our customers to work as efficiently as possible with their machines and consumables such as film and strapping tape. In this way, we actively work to reduce waste, save energy and reduce CO2 emissions.

MATCO IN SHORT

- ✓ Located in Deventer (NL), Raamsdonksveer (NL), Waalwijk (NL), Mechelen (BE), Tarragona (ESP), Sprockhövel (DE) and Maidstone (UK)

ON-SITE SUPPORT

Matco understands that our people are essential components to keep your pallet wrappers operational. To achieve this, we offer a highly trained, competent and dedicated Field Service Team with decades of experience. Our people are ready to meet all your wrapping needs, both in terms of the machine and the wrapping film and the combination of both.

SPARE PARTS

Matco spare parts from order confirmation to delivery in 48 hours. Our dedicated spares team need the part number and machine serial number to help you promptly.

QUICK SOLUTION IN THE EVENT OF A MALFUNCTION

Malfunctions are always inconvenient. Therefore, it is a must for us that we guarantee you short response times. The downtime of your production and packaging lines must be as short as possible. This is ensured by our all-round 20 service engineers with many years of experience. Perhaps the solution can even be provided by telephone or remote access. If not, we will ensure that our service engineer is on site as soon as possible in order to remedy the downtime.

Our 20 service engineers go all over the country. In addition, they know all the pallet wrappers and associated transport systems, so they can always solve the problem quickly. Rely on our service desk, 24 hours a day, 7 days a week.

DO YOU WANT EXTRA SECURITY?

If you conclude a service contract with Matco, you can count on both preventive maintenance and rapid assistance from a service engineer on site.

24/7 SERVICE

Every Matco pallet wrapper includes the Matco service as standard. You are assured of fast and expert service throughout the life of your pallet wrapping machine. So, if you urgently need help due to a malfunction, you can call on our 24/7 breakdown service.

It goes without saying that a Matco pallet wrapper complies with the latest European safety standards and is therefore provided with the legally required CE marking. This means that we also provide a guarantee on many parts, as agreed upon at delivery. You can always contact us for this.
